WPA ABOUT TO FOLD OPERATIONS IN OHIO

Only Few Nursery Schools Now on State Program.

COLUMBUS, O., April 1.—Dr. Carl Watson, Ohio WPA administrator, said yesterday the federal agency which in October, 1938, had 278,000 persons on its rolls, now operated only a few nursery schools and that they would close by April 10 unless they received Latham act funds. The WPA announced in Washington its operations would be reduced to 14 states after today.

ELIMINATION OF FEDERAL AUTO TAX RECOMMENDED

Experts Would Leave Field Entirely To States.

WASHINGTON, April 1.—A committee of experts which has been studying intergovernmental fiscal relations for two years believes the federal government should get out of the motor vehicle tax field, leaving the right to tax aviation gasoline only.

This is one of a series of suggestions in a report submitted yesterday to Secretary of the Treasury Morgenthau. In recommending the federal government abandon the motor vehicle tax field, as soon as its financial exigencies will permit, the committee said this field "forms a lucrative and badly needed source of revenue for the states" and is one which they are exploiting or might exploit adequately and satisfactorily.

Repeal of the federal motor vehicle tax also was urged by the committee as inequitable. The report suggested, however, that the federal government should get out of the motor vehicle tax field, leaving the right to tax aviation gasoline only.

PROPOSE OHIO REDISTRICTING

Law Offered To Take State Congressional Districts Out of Politics.

By The Associated Press
COLUMBUS, April 1—A proposed new law designed to take congressional redistricting out of politics was recommended for passage today in the Ohio senate.

Ohio's 22 congressional districts are defined by a legislative enactment which fixes the boundaries in detail. Since 1911 every attempt to change the districts

has been defeated in the legislature, although Ohio members have acquired a congressional seat.

The bill recommended by the senate's elections and federal relations committee would set up rules under which the districts could reshape themselves every 10 years, according to the increase or decrease in population.

Effective in 1951, the proposed legislation, introduced by Senator Carl D. Shepard (R-Summit), would become effective in 1951. It also provides for abolition of the congress-at-large office and substitution of a 23rd district, and changes some districts.

Cuyahoga county, now a part of three districts, would be divided into four districts. Lake and Geauga, now in the 22nd with Cuyahoga, would form a new 16th district with Ashtabula and Trumbull.

The present 14th district would be split. Lorain, Medina, Portage and that part of Summit county south of Akron would form a new fifth district. The remainder of Summit would constitute the new 14th. Mahoning would compose the 19th.

The fifth and eighth districts would combine, but Fulton and Henry, now in the fifth, would go into the 13th. Ottawa, now in the ninth, also would go into the 13th, leaving Lucas alone in the ninth.

New 11th District
The 10th and 11th districts would be combined into a new No. 11, but Fairfield and Perry counties would be transferred from the 11th to the 15th.

Before the house of representatives today was a resolution proposing that the attorney general investigate The American Major-

ity of Florida, an organization which favored a bill to abolish the five-day ditch inspection law of county commissioners. The measure was passed by the house Tuesday.

The resolution said T.A.M. was not registered with the secretary of state, as required of lobbyists. The inquiry was asked by three members who opposed the anti-fee bill. Reps. Osa L. Johnson of Mercer county, J. E. Simpson of Hardin and Robert A. Wilkinson of Van Wert, all Republicans.

The senate approved and sent to the governor a bill authorizing employers, during harvest season, to employ minors 14 or older for unlimited hours. It also passed to the house a bill allowing banks to remain open on legal holidays. Establishment of a first aid course in high schools was recommended in a resolution adopted by the house.

Marion WAAC To Go to Florida April 2

Miss Mary L. Hemmery of 229 East Fairground street has been ordered to report at the Second WAAC Training Center at Daytona Beach, Fla., April 2, according to a report from Ft. Hayes, Columbus. Miss Hemmery, the daughter of Mr. and Mrs. D. R. Hemmery, was inducted into the Women's Army Auxiliary Corps March 18 and has been employed in the accounting department at the Universal Cooler Corp.

Special to The Star
GALLION, April 1—Finley Prosser, 82, of Gallion died at his home shortly after noon, Wednesday, following a year's illness. He was born in Richland county, March 8, 1861, and came to Gallion from Morrow county, 26 years ago.

His marriage was to Mary Stull who survives. Five sons also living are Clarence at home, Forrest of Gallion, Orville of Camp Claiborne, La.; Marion and Percy, both of Gallion.

Funeral will be held Saturday at 2 p.m. at the Snyder funeral home, and burial will be made in Shauk cemetery, Morrow county.

REPORTS ELECTION COST
By The Associated Press
COLUMBUS, O., April 1—The cost of elections in Ohio last year was \$2,537,001, Secretary of State Edward J. Hummer reported today. The largest expense was \$1,034,241 for salaries of elections boards and their assistants.

W.C.T.U. PICKS FINDLAY

From where I sit...

by Joe Marsh

"Well," says Judge Cunningham, "I see they've got it!"

"Got what?" I say.

"Look," beams the Judge. And he pulls out an article about a special kind of "lie detector"—an "alcoholometer," they call it.

When a fellow gets haled into court for doing mischief, and blames it all on a "couple of beers," this scientific machine proves whether just a "couple of beers" is really the true answer.

And of course it isn't. Because a couple of beers, enjoyed with

friends, is a way people keep out of trouble, not get into it!

From where I sit, I certainly agree with the Judge. The fellow with the alibi about a "couple of beers" is reflecting on good citizens everywhere who enjoy a quiet glass of beer with their meals—sittin' with their friends or just relaxing after a day's work. Moderate folks like that are entitled to consideration.

GUESSES ON COURT
APPOINTMENT START

Speculations on Crow Success-
... include Marion Men.

Senator Bricker prepares to announce his candidacy for the Third Circuit Court of Appeals, caused by the resignation of Judge Phil Crow. Several attorneys over the district are being consulted for possible choices. In Marion lawyers there is some discussion of the district courtship about a decade ago. Governor Bricker, a Democrat to the district. This is based on the

fact that Judge Crow was a Democrat and that the other two members of the three-judge court are Republicans. If this possibility develops, the name of Common Pleas Judge Hector S. Young of Marion county is expected to figure in the field of possible appointments. Judge Young has been considered a possible candidate for the judgeship in recent years, and probably is as widely known throughout the district as any of the other possible appointees.

Attorneys pointed out that among Republican possibilities is Fred L. Carnhart, Marion attorney who made an unsuccessful bid for the district courtship about a decade ago. Because the district is large, the list of possible appointees is proportionately large, but among

those whose names have been mentioned here are Judge C. U. Ash and William Schenck of Bucyrus. Also prominently mentioned are George Manderson of Bellefontaine and Judge R. A. Younger of Celina. If the appointment is for the unexpired term of Judge Crow, it will be for a little more than four and one-half years.

How To Wage
War on Weeds

Associated Press Features
It's no secret weapon, but the hoe is the garden general's big gun in his battle against weeds. The weed uses infiltration methods, sneaking into the ranks of carrots, beans and other good Victory Garden soldiers to rob them of water, nutrients, space and sunshine.

The zero hour for striking weeds occurs after each rain. As soon as the soil can be worked after a soaking, it should be hoed thoroughly. This cultivation should be shallow, so that tender roots are not harmed.

As the first purpose of the cultivation is to keep weeds out of the garden, it need not be done often, but necessary to keep the garden clean. One other purpose, however, is to leave the surface in a loose condition so that it can absorb later rainfall.

The weeds that take root quickly, after cultivation, can be pulled by hand and carried out of the garden.

In regions where irrigation is necessary, the water should be applied thoroughly and deep, similar to the way it is deposited in a heavy storm. Frequent, light sprinkling of a garden can do more harm than good because it

Morale Medicine
THE BLINDFOLD to United Nations confidence
in the victorious ally from Tunisia cannot
be overestimated. It promises to be the strongest
boost for morale since Russia's first successful
counter-attack in the winter of 1942.
Gen. Montgomery's army has overcome the
massive, brutal British ability to deal with
German land troops. When the time comes, the
veterans of Dunkirk, poised in northern Tunisia,
may be expected to do as well in that sector as
Montgomery's men in the south. United States
troops, advancing in the central sector, still
are largely untried, but their countrymen do not
doubt that they will perform creditably when
their big moment arrives.
In Tunisia the myth of German superiority,
which was built on the failure of their opponents
to prepare for the war that Adolf Hitler had
planned to win by overwhelming force, is being
destroyed forever. The job the Russians started
is going to be finished. Thereafter, the war
will become what it never has been before—a
campaign to crush a discredited and disin-
tegrating alliance. Germany has failed to keep
up its obligation as an ally of Japan; it has
retreated from the Near East. The result of its
final rout in Tunisia may be the final dissolu-
tion of Italy as an Axis partner.

Ohio's Senators Speak Out
THE terms of Sen. Taft's disagreement with
the Ball-Burton-Hatch-Hill resolution now
before the senate foreign relations committee
have their origin in a basic problem of Ameri-
can political organization—jealousy between
senate and chief executive in the field of foreign
relations.
Sen. Taft suggests that the resolution may
play into the hands of those who would give
full authority to the executive to make treaties
without regard to the senate's controversial
duty of "advising and consenting." Moreover,
he thinks the resolution goes too far in its
commitment to future policy.

Sen. Burton, on the other hand, feels that "we
should do more than we have been doing to
prepare for post-war internal and regional sta-
bility, immediate post-war emergencies and
worldwide military stability." When the stated
views of the two Ohio senators are compared,
their disagreement is more apparent than real.
Sen. Taft concedes that the senate should help
take the initiative in planning for post-war
problems, but its dubious about delegating au-
thority to the chief executive to make arrange-
ments which might not be acceptable to the
senate because it did not participate in them.
Of the two, it is likely that Sen. Taft wants the
senate to accept the greater responsibility,
though superficially it may seem that he is criti-
cizing Sen. Burton for proposing an extension
of senate responsibility in advance of the post-
war problems that must be solved.
Ohioans, remembering the period when they
were represented in the senate by men who
prided themselves on having nothing to say
about anything, are gratified by the fact both
their senators now are in the thick of one of
the most momentous subjects ever to occupy
the attention of congress.

Meat Rationing, the Hard Way
IF—when—the United States rallies its re-
sources for another war, some things will be
done better. Surely there would be no waiting
until the horse was stolen to lock the barn
door; rationing systems developed by current
experience would be set up immediately, as
they were in Germany, for instance, before
Hitler began his mad march to conquest.
Meat and butter rationing, the public is being
warned, may get off to a bad start because too
much time elapsed between the announcement
that they were forthcoming and the time they
went into effect. Supplies have been depleted
to the point where retailers cannot be supplied
in all cases with enough stock to meet the
equalized demand under a rationing system.
The result will be confusion that might have
been averted, misunderstanding that will com-
plicate administration of rationing and uncer-
tainty that can be expected to have unfavorable
effect on popular morale. While all these effects
may be minimized by the national characteris-
tics of exceeding expectations, the fact is they could
have been averted entirely if the rationing
program had been put into effect in time to
conserve a surplus instead of to face the event

Lessons Seen in U. S. Isolation Policy
After Last War.

By WALTER LIPPMANN

WHILE it is generally certain
that the United States can-
not afford to repeat the
mistakes of the 1910s and
1920s, it is not certain that
the nation will adopt what
it may call for "isolation."
The isolationist movement
has been a failure. It consisted
of a group of men, a set of
general rules, such as negotiating
a "non-intervention" treaty,
and a set of ideas, such as
the idea of a "league of all the
nations," and an indefinite
obligation to "maintain the
status quo." It failed to power
to do so.

It is the lesson to say that this
did not work because the United
States refused to participate. But
this is, I believe, a misreading of
what happened, and one which
can mislead us now.
The heart of the original con-
flict was the famous Article
X of the Covenant, which carried
the commitment to respect and
preserve against external ag-
gression the territorial integrity
of all members of the league.

Article X was looked upon as
entangling the United States in
wars to defend many extremely
doubtful frontiers. Wilson could
certainly have obtained ratifica-
tion if he had been willing to
eliminate or amend this obligation.
Extreme isolationism did not de-
velop until much later.

This extreme isolation was, I
believe, the result of a mistaken

Women on All Fronts
They're Doing Their Bit at Home and Abroad.

COMMUNIQUE from the United
Nations Women's War Front:
Four hundred American women
are teaching and nursing 107,000
Japanese evacuated from the west
coast and stationed in 10 isolated
war relocation centers.
Honore O'Brien, home service
consultant of the Public Service
Co. of Northern Illinois, has now
worked out a plan to supplement
rationed canned goods by dehy-
drating vegetables from Victory
gardens in the oven of the kitchen
range.
Blind Eleanor C. Judd, Kew
Gardens planor, gets in her lick
against the Nazis by donating
blood to the Red Cross blood
bank. Members of the Ameri-
can Women's Voluntary Service
are taking a kitchen on wheels
around New York to teach Man-
hattan housewives how to get the
greatest food value out of the
point rationing system. Mrs.
Ruby Barnett, a 41-year-old
grandmother who used to hunt
with her husband in Pennsylvania,
has a war job testing rifles and
machine guns at the Aberdeen
proving grounds.
American Army Nurses will
soon have new uniforms inspired
by their experiences on Bataan.
Work uniforms for the front will
be khaki trousers, shirts, helmets,
boots and mosquito-repelling gaiters.
Hospital uniforms will be
brown and white striped seer-
sucker. And steel clothes will
resemble WAAC uniforms.
The war has given Chinese women
of the hinterland greater op-
portunity to serve their country
and enjoy a national status than
ever before. Two hundred and
fifty girls from Kwangsi Province
made an army for the front lines,
and other trained guerrilla war-
fare. After the invasion of in-
dustrial coastal regions hundreds
of other Chinese girls went to
work in small cooperatives all
over the hinterland, spinning yarn
for soldiers' uniforms on old-fash-
ioned American spinning wheels.

Hunt Old Remedies

men may get together to relieve
a shortage of war-needed drugs,
especially quinine.
Here at the southern labora-

been sent into the Everglades to
locate quinine-like plants to test
their medicinal qualities. A num-
ber are undergoing such tests
under the direction of Dr. Alfred

But while this work is going
on, the Institute scientists,
headed by Dr. George Sperit, di-

dled down through the generations.
Lucy plans to subject these reme-
dies to modern scientific tests and
adopt any useful qualities for

Portrait of a Governor

By the Council of State Governments.

THE average state governor is
a family man, 51 years old,
with previous service in admin-
istrative, legislative, or judicial
fields of government.
His chief concern is his state's
efforts to back the national war
program. He has a growing con-
viction, also, that next to winning
the war is the task of planning in
advance for solving post-war
problems. Most governors fought
in World War I or served in ca-
pacities connected with prosecu-
tion of the war.
Twenty-four of the present
governors are Republican and 24
are Democrats. Twenty-seven are
between the ages of 45 and 56,
with the oldest 80 and the young-
est 35.
A fourth of the governors were
born outside the states they gov-
ern. Illinois claims three gov-
ernors as native sons—Kelly of
Michigan, Willis of Vermont and
Hunt of Wyoming.
Of 30 governors serving their
first elected terms, 14 were elect-
ed last November. Thirteen are
serving their second terms, five
their third terms.
Twenty-seven governors are at-
torneys, six are newspapermen,
two are oil men. One is a den-
tist, and among the others are a
rancher, a citrus grower and a
college professor.
The average governor's family
is three. Two governors, how-
ever, are bachelors. Salaries range
from \$3,000 to the \$25,000 paid
by New York.
Seven governors have served
as lieutenant governors, and sev-
en were members of various state
commissions. Five were mayors.
More governors have served in
local capacities than any other,
however. Six were attorneys
general, 11 were county attorneys
and six were city attorneys. Six
were U. S. district attorneys or
assistants. Two Govs. Dewey of
New York and Green of Illinois,
won fame in racket prosecutions.
State legislative experience was
reported by 20 governors, 10 as
representatives, five as senators,
five as both. Four served as U.
S. representatives and one—Gov.
Neaseley of West Virginia—has
been both a representative and a
senator.
Seven former judges now are
governors—Raymond E. Baldwin
of Connecticut, town court; Spe-
sard L. Holland of Florida, coun-
ty judge; Paul B. Johnson of
Mississippi, circuit judge; Sam C.
Ford of Montana, state supreme

Trained for Army Life

NEW YORK—The Boys' Clubs
of America have inaugurated a
pre-military service training plan
designed to give American boys
a more equal chance in combat
with German and Japanese.
The plan stresses physical fit-
ness and development of techni-
cal and mechanical skills. Boys
with such defects as hernia, bad
teeth, curvature of the spine, fallen
arches and so on are given medi-
cal attention. Army-approved
exercises are given to increase
strength, endurance, alertness and
co-ordination. Swimming, life
saving and first aid are taught,
along with classes in radio, tele-
graphy, motor mechanics, naviga-
tion and kindred subjects.

Post-War Prospects for New Cars
An urgent public need for at least 5
passenger automobiles when the war
been predicted by David E. Castles, pre-
sident of the National Automobile Dealers Assn.
"In the efforts now being made to clean
as possible for post-war economic and
is not amiss," he says, "to make an es-
timate what the market for automobiles
will be because of the vast importance
key industry. Until we find out how the
war will last we can, of course, only
rough estimate of post-war motor re-
quirements, but facts are not lacking as to
from which it is possible to gain a good
idea of the enormous proportions of the
problem."
"During the years 1941 and 1942 a
total of 3,000,000 cars were taken out of
most of them permanently. It is re-
asonable that there will be a demand
replacement of all these automobiles
year of war would doubtless raise the
to 5,000,000. The factor of obsolescence
important. The last decennial census
showed that on April 1, 1940, three out
of 10 cars on farms were 10 years old or
older. Later studies by other research groups
showed that on July 1, 1941 about 4,500,000
cars more than 10 years old. This means
that today many more cars in the world
passed the age limit.
"Still another factor is the demand
which will come from the returning
of our military forces. I believe I am
estimating this demand at 2,500,000 at
least.
"In connection with these studies it is
interesting to note that in the immediate
years, the American public bought 98
cars as follows: 1941, 3,744,000; 1940-
1939—2,868,000; 1938—2,000,000; 1937-

Nazis Launch Program of Birth Prevention in France

Plan Designed To Remove Country as Threat to Germany; Loss of 15,000,000 Seen in 25 Years.

By The Associated Press
BERN, Switzerland (Delayed).—Behind the facade of the collaborationist armistice, the Nazis have instituted a grim program of birth prevention in France which, coupled with the country's constantly dropping birth rate, may reduce the population by 15,000,000 within the next quarter century.

These Frenchmen, who are beginning to realize the possible dire consequences to their country, recently expressed the belief that Hitler has not renounced his "Mein Kampf" contention that France must be destroyed.

now in full swing with what foreign observers believe is a Nazi program to augment the 1,000,000 prisoners already held by the Nazis at least 2,500,000 youths for either "voluntary" or compulsory labor in Nazi industry and defense construction.

The effect of this would reduce France largely to a population of old men, women and children, with the more remote result that in another 25 years France would have a population of only 24,000,000.

It is estimated that the Nazis

are in full swing with what foreign observers believe is a Nazi program to augment the 1,000,000 prisoners already held by the Nazis at least 2,500,000 youths for either "voluntary" or compulsory labor in Nazi industry and defense construction.

The French census for 1940 showed the following age groups: 15 to 19—3,800,000 or 27 per cent of the total population; 20 to 24—2,920,000 or 19 per cent; 25 to 29—2,230,000 or 16 per cent; 30 to 34—2,280,000 or 17 per cent; 35 to 39—2,250,000 or 17 per cent; 40 to 44—2,060,000 or 15 per cent; 45 to 49—2,510,000 or 18 per cent.

The list highlights the already "old" population of France. The drop in the population was described as "phenomenal" in a Paris dispatch to the Vatican City newspaper, "Osservatore Romano," which expressed concern, since France is a Catholic country.

Deaths Exceed Births.
In 1878, France had 1,022,000 births; in 1938, only 614,000, while deaths totaled 643,000. In 1941, births in Germany totaled 1,701,000 but in France—with 1,500,000 prisoners in the hands of the Nazis—only 493,284.

Eighty years ago France had four old people for every ten workers. Today the ten workers must provide for six old people. In 1800, France had 16 per cent of the population of Europe; today she holds less than 8 per cent. Fifty-three per cent of the 12,804,847 French homes are childless; 23 per cent have only one child; 13 per cent have two children; and 8 per cent have three; while only 1 per cent have six or more.

Marriages dropped from 247,169 in 1939 to 189,830 in 1940—facts which even before the Nazis began their present birth prevention program in France impelled Marshal Pétain to cry out that the chief cause for the defeat of France was "too few children."

Action on Utilities
Excise Tax Is Delayed

By The Associated Press
COLUMBUS, O., April 1.—The senate taxation committee yesterday postponed until next Wednesday a showdown on the controversy over the expiration date of the Hoffman bill extending for two years the .85 of one per cent utilities excise tax on gross revenues.

Action of the committee, a spokesman said, was based on belief that the "general" feeling among committee members of a week ago had not yet cooled sufficiently to insure enough support for a move to change the expiration date back from Dec. 31, 1944, to April 30, 1945, as in the bill passed by the house.

Sen. Ted M. Gen. Republican of Miami, who moved for the postponement, said he intended to vote for the April 30 date, but that the "tension had not yet eased sufficiently" to gain support of the administration's desires.

Administration spokesmen asserted, however, following numerous conferences with legislative leaders last Monday, that the "misunderstandings" had cleared and that the bill would have clear sailing.

ITALY STRENGTHENING HER HOME DEFENSES

By The Associated Press
BERN, Switzerland, April 1.—Italy began today to emphasize her home defenses, especially those of Sicily, as the battle of Tunisia swung toward a decision, and to prepare her people guardedly for the new theater of the war in continental Europe.

The war "in the long run must be decided on the European continent," wrote one Italian journalist who added this contradiction, "upon which the enemy can't set foot."

Otherwise, Berlin and Rome avoided a direct suggestion that Tunisia might be abandoned, but they made little effort to conceal the seriousness of the situation. "The objective is 'holding intact our forces in the face of an enemy superior in men and material,'" a Berlin commentator said.

FAT SALVAGE PLEA ISSUED TO NATION

Housewives Told How They Can Help Win War.

NEW YORK, April 1.—Rationed meats and shortages make it impossible to eat as much fat as in the past, and the government is asking that people turn in for salvage fats that can and should be used for food.

Mr. Wickard emphasized, however, that the government does not ask that people turn in for salvage fats that can and should be used for food. He quoted a recent statement by Secretary of Agriculture Claude R. Wickard urging housewives to "make sure that all food value is obtained from the fats that come into your kitchen."

"Most of us naturally are going to use some of these fats hitner contributed to salvage, such as bacon grease, for frying and other

uses," Mr. Wickard said. But from it will be salvaged the most important part of the fat, the glycerine, which is used in the manufacture of explosives, and in the production of other war materials. "If every household saves only a pound of fat every two to four years, we can nearly double the production of explosives for the war without difficulty."

The 200,000,000-pound quota was based on each household contributing an average of one-half pound a month, and this figure is only a rough estimate of the amount of the garbage can or down the waste pipe normally tossed into drain.

"But, the rise hasn't been great enough," he said, "we are still far short of collecting enough waste fats to keep our glycerine reserves at a safe level. It is still the housewife's job, as Secretary Wickard has emphasized, not only to get full food value from fats, but to salvage every ounce to make gunpowder after you have gotten maximum use of it for food."

QUESTIONED IN THEFTS

"No finer single service..."

No finer single service in the interest of the American public has been performed during this war than the splendid handling by the nation's press of the OPA processed foods rationing program.

The repeated publication in thousands of newspapers of the OPA consumers' declaration form permitted millions of Americans to appear at the registration sites and obtain War Ration Book No. 2 in a matter of minutes.

This means an incalculable saving both in manhours of work by the volunteer registrars and in the time of the individual applicants.

Similarly, the publication by newspapers of the official table of point values for March makes it possible for millions of housewives to plan their families' meals and shopping tours in advance. And here, also, is accomplished great saving of time for the country's 600,000 food stores and the shopper herself.

Again, due to repeated appearance of pictures in the press together with explanatory material, War Ration Book No. 2 became familiar to the public weeks in advance of its issuance.

Added to all of these extremely important services was the publication in news columns of

thousands and thousands of words explaining the why, when, and how of processed foods rationing and use of the point system.

It is not an overstatement to say that without this cooperation the high degree of public understanding of this huge rationing program never could have been achieved in the short space of a few weeks.

Such a splendid public service looms even larger when it is remembered that, like many other enterprises, newspapers are feeling the effects of manpower shortages, transportation difficulties, and curtailment of supplies. Nevertheless, they are going ahead full steam and overcoming these handicaps to the end that Americans can continue to be the best informed population in the world.

For the invaluable assistance freely given by a free press of a free country, may I express the deepest gratitude of the OPA?

Prentiss Brown
ADMINISTRATOR
OFFICE OF PRICE ADMINISTRATION
In a letter to Editor & Publisher

WHAT NEWSPAPERS did to help the successful launching of the food rationing program . . . as described by Price Administrator PRENTISS BROWN . . . is but one evidence of how the nation's press, today as always, keeps the people fully informed.

In countless other ways, too, newspapers are arming the people for their home-front job . . . giving them full information on rationing and taxes, dimouts and blackouts, conservation and salvage . . . helping every individual take the steps we all must take to hasten the day of victory and peace.

In spite of wartime handicaps, as Mr. BROWN points out, newspapers "are going ahead full steam . . . to the end that Americans can continue to be the best informed population in the world."

One thing only makes it possible for the press to render such essential service. That is the people's faith in their newspapers . . . the confidence with which Americans everywhere look to their newspapers for information, guidance and leadership. And that, basically, is what makes newspapers so valuable a medium for advertisers today.

RED CROSS BLOOD UNIT COMING SOON

To Be in Marion Again April 12 to 14; Committee To Meet.

Heads of various Red Cross units in Marion county having any connection with the Red Cross blood donor program will meet with the blood donor chairman, Robert T. Mason, Friday to make preparations for the return to Marion of the mobile blood receiving unit on April 12, 13 and 14.

Registration of donors is still under way at the Red Cross chapter office, and possibly may be taken again at the Victory House on the courthouse lawn for a short period, before the unit comes to Marion.

Chairman Mason said he has been informed the unit wants to obtain blood donations from 480 persons in its three-day visit to Marion. This increased quota came about through speeding up the activities to the level of handling seven blood donations every 15 minutes instead of the previous six in each 15-minute period.

The mobile unit again will be at Epworth Methodist church.

GRAND PRAIRIE SCHOOL TO GET SURPLUS VEGETABLES

Extra Food To Be Donated for Use in Cafeteria Meals.

Extra vegetables planted by residents of the Grand Prairie community this summer will be donated to the school cafeteria to complement the meals served to the children at noon during the school term. It was planned at a meeting of the Grand Prairie P. T. A. Friday night. The vegetables will be canned by the women of the community and the I-H club girls.

Plans also were made for an all-day meeting on the closing day of school May 14. Mrs. Paul Lill was named chairman of the committee to arrange for the affair. During a business session the following officers were elected: John Shelton, president; Mrs. James Kerr, vice president; Mrs. O. G. McGee, secretary; Miss Gwendolyn Wagner, treasurer. The program hour was in charge of Miss Ruth Rinner, music supervised in the school and was titled "Music of Our Allies." Flag-bearers were Dean Shelton, Jody Hamilton, Dallas Fells, Gilbert Herr, Shirley Neff and Nancy Milley. England was represented by songs "Three Dukes," by the first and second grade pupils, "Oh, No John" and "Oh, Soldier, Soldier" by the fifth and sixth grades. Pupils of the third and fourth grades presented the music of Holland, and for the music of Scotland the Girls chorus, made up of pupils of the seventh, eighth and ninth grades, in costume sang "Blue Bells of Scotland," "Annie Laurie," and "Highland Fling," and they also presented music of Scandinavia, Ireland, Russia, Hawaii and the American Negro. Boys of the seventh, eighth and ninth grades presented "Dixieland Minstrel" with Charles Harris as the inter-locutor and Jack Lill, Marion DeWees, Fred Baer, Donald Clark, Virgil Hite and Harold Milley as endmen. Others taking part were Clifford Danner, James Conley, Dick Baer, Alvin Merritt and Clarence Williams.

Former Governor Cox Optimistic for Future

MIAMI, Fla., April 1—James M. Cox, former governor of Ohio and the Democratic presidential nominee in 1920, interviewed yesterday on the occasion of his 73rd birthday, sounded an optimistic note.

"A patient philosophy enables us to look calmly and confidently to the future," he declared. "The gods are taking care of the devil's triumvirate."

"It remains only for the common sense of the crucified peoples of the world, their lessons learned from past blundering, to impose on the governments such a conduct of the world's affairs as will save them from another Gethsemane."

FIREMAN STRICKEN

CLEVELAND, April 1—Lieut. Charles Klockson of the city fire department died last night shortly after he was overcome by fumes while fighting a fire in the locker room of the Oster Manufacturing Co. Fireman Edward Groggin also was overcome, but was expected to recover. Damage to the plant which makes tools for war factories was slight.

DAVIS SEES INVASION OF EUROPE THIS YEAR

OWI Chief Sees African Decision Due In Time.

By The Associated Press
WASHINGTON, April 1—Director Elmer Davis of the office of war information voiced the opinion yesterday "strictly as a civilian" that axis forces in Tunisia would be exterminated or neutralized in time to permit invasion of continental Europe this year.

While advising against premature optimism, Davis told a press conference he thought Nazi Mar-

shal Roemmel's ultimate chances of getting men and equipment out of North Africa are "considerably lower than those of the British at Dunkerque."

Most encouraging of the North African developments in recent days, Davis said, was that Roemmel had been "outgeneraled" by Gen. Sir Bernard Montgomery, commander of the British Eighth army which broke open the Mar-eth line.

However, he added, Roemmel has escaped at once with the bulk of his forces and may be able to fight delaying actions which will hold up the allies for "quite a while longer."

Davis speculated that the Ger-

man Afrika Corps apparently will make a last ditch stand, the OWI chief said.

He added that Roemmel's army is now in a "strategic position" of Gabes, where the salt marshes come close to the sea. But there are places in the vicinity of Tunis (Tunisia) where Roemmel can in this community and in the vic-

inity of Roundhead and Huntsville all of his life, died in his home west of Kenton Monday after serious illness of two weeks.

Funeral will be held in the Fairview Methodist church near his home at 1 p. m. Friday.

FINDS TWIN SISTER SHE NEVER HEARD OF

Columbus Woman Gets Surprise in Pittsburgh.

By The Associated Press
COLUMBUS, O., April 1.—If you walked into a room and saw someone who looked exactly like you, would you believe your eyes?
Mrs. Clara Whitehead, 32, of Columbus didn't until she learned the double was a twin sister she had never known about.
The meeting occurred last week in the office of the Children's Aid society at Pittsburgh where Mrs. Whitehead had gone for help in getting a birth certificate amended in connection with a war job.
"Mrs. Whitehead, this is Alice, your twin sister," a field worker told the Columbus woman who hadn't even known she was an adopted child until the need for a birth certificate arose.
"It was a shock to look at an exact image of myself. I couldn't believe it," said Mrs. Whitehead, an attractive blond whose husband works at the Curtiss-Wright warplane plant here.
Talking with her twin and society employee, the Columbus woman said she learned she and her sister were born in Erie county, Pa., and adopted by different families when a few weeks old. Mrs. Whitehead was reared in Charlestown, Pa., by Henry Brewer without being told she was an adopted child. The sister, whom Mrs. Whitehead declined to identify by her full name, also is married and lives in Pittsburgh.
When a birth certificate was required for the war job a search of her late father's papers disclosed the name of the society. Mrs. Whitehead wrote the society, then went

WELLES SAYS WORLD IS LOOKING TO U. S.

Post-War Policy Is Question Allies Are Pondering.

By The Associated Press
NEW YORK, April 1.—Sumner Welles, undersecretary of state, said today that "one of the most acute questions that exists in the minds of the partners of the United Nations today is the question as to what the policy of the United States will be when the victory is won."
Welles, in an address prepared for delivery to the Chamber of Commerce of the state of New York and broadcast by the NBC, declared that our allies recognize that after the victory in 1918 the United States withdrew from almost every form of practical cooperation with friendly nations in the reconstruction task, and "made no effort to win the peace."
"Our allies are asking themselves now whether we will again follow that same course," Welles said. "In a very real sense the decision that will be made with regard to the renewal of the trade agreements act will be regarded by peoples throughout the world as an acid test of our future intentions."
"They will see in that decision a clear indication as to whether the people of the United States have determined upon a policy of international cooperation for the future, or whether they will once more turn back to that road of isolation which leads to inevitable disaster."
Production Miracle
Lauded by Nelson
By The Associated Press
CHICAGO, April 1.—The nation's industry has performed a "miracle of production" in the war effort and the creative skills of management and labor have elevated America to a "height of potential military power such as the world has never before seen," says Donald Nelson, chairman of the war production board.
The WPB chief in an address last night asserted the cooperation of business men and concentrated productive forces of the nation's factories had resulted in many "dramatic" achievements in cost reduction. He cited several instances and said they were the "direct effect of the mass production techniques and experience of American industry acquired in peacetime."
Nelson said it was "desirable that we do not curtail civilian production much further, but caution that 'we must not be too optimistic. In these uncertain times, there is no telling how heavily the hand of war may yet fall upon us.'"
"The WPB chairman said war production this year would exceed 80 billion dollars in munitions and construction as against 48 billion dollars last year.

Three Traffic Mishaps Reported in Marion

Three accidents were reported to city police Wednesday.

A police car driven by Harry L. Smith of the police department and a car driven by George Barnes, 74, of 152 Brenner court, figured in an accident on South Main street near Church street yesterday morning. The left front fender of the police car was damaged.
Last night at 6:40 cars driven by Wayne R. Berry, 31, of 402 Leader street and F. M. Hoch, 35, of 244 Edwards street collided at Leader and Silver streets. Minor damage resulted.
Cars driven by Wynita M. Parks, 23, of 379 Park boulevard and Charles E. Shirley, 22, of 592 Herman street collided at Park boulevard and West Columbia street at 5:25 p. m. Wednesday. The right side of the Parks car and the front of the Shirley car were damaged.

WIFE TRADE DEAL REVEALED IN COURT

Swap Rivals Balzac Tale for Frankness.

By The Associated Press
INDIANAPOLIS, April 1.—An innocent petition for the support of children filed recently in Marion county superior court revealed today a wife-swapping agreement rivaling an old Balzac tale for Frankness.
Judge Emory W. Johnson Jr., identifying the couples only as Mr. and Mrs. A. and Mr. and Mrs. B., said he had learned this story in a hearing on the petition.
Four years ago, Mr. and Mrs. B., who were childless, canvassed orphanages looking for a child to adopt, but without success.
Mr. and Mrs. A., friends of the B.'s, had three children.
The couples signed an agreement drawn up by a lawyer and stipulating that Mrs. B. would live with Mr. A. while Mrs. A. would live with Mr. B. "until such a time as the B. home would have two children."
The terms of the agreement were carried out and now Mrs. A., now the mother of five children, has returned to live with her husband, Mr. A.
But Mrs. A. refused to leave the two youngest children in the B. home, and filed the petition demanding that Mr. B. pay for their support.
"The evidence being what it was," Judge Johnson said, "I threw the whole case out and refused judgment to anyone."

Gen. Fredendall Likely To Succeed Lear May 31

By The Associated Press

MEMPHIS, April 1.—Maj. Gen. Lloyd R. Fredendall, a veteran of the Tunisian campaign, appeared today a certain choice to succeed Lt. Gen. Ben Lear, who retires May 31 as commander of the Second Army.
Fredendall reported to Lear yesterday as deputy commander of the Army and later the three-star general announced he was retiring at the age of 64 under statutory law.
An Army man for 42 of his 59 years, Fredendall, like Lear, is known as a strict disciplinarian and outstanding trainer of troops.
Fredendall received wide acclaim for directing the three-day attack against French forces at Oran last November and subsequent administration of that area. Three months later he was in command when Field Marshal Erwin Rommel's veteran Africa corps swept through Faid pass and gave the Americans their first major setback. Lt. Gen. George S. Patton Jr., succeeded Fredendall as commander in central Tunisia.

THIS IS PART OF YOUR PAY CHECK

That gun's making things pretty hot for the Axis

It came from the pay check and pay envelopes of people like you. It was bought with the money you lent your Government in regular installments from your pay.

But hold on now—Maybe it's not your gun! Maybe you aren't setting aside at least 10 percent of your salary for War Bonds!

There are still some people who don't not many, but maybe you're one of them. If you are one, we're sure it's not for want of patriotism, but because you haven't gotten around to it.

Tell your boss today you want to help win the war by joining the Pay-Roll Savings Plan. Tell him you want to save at least 10 percent of every pay check by putting it into War Bonds.

You can't make a better investment. You'll be buying the weapons that insure a future of freedom, peace, and plenty . . . and you'll be getting back \$4 for every \$3 you save.

NEW INVENTION MAKES BLIND FLYING SAFER

Revolutionary Aviation Device
Still in Secret Stage

By The Associated Press
CHICAGO, April 1.—Research in aviation to further the war effort has brought many new inventions in the industry, including an invention that means the elimination of the hazards of blind flying through fog, even at night, says one of the industry's leaders.

President Ernest R. Breech of long list of weather hazards non-use Bendix Aviation Corp. in an effort to make the blind flying safer. He said through a statement that "Despite the fact that American pilots will be definitely equipped with the greatest protection with aircraft that these developments are in the air and are equipped with broad in the scope of their application, or greater fire power, that I cannot help but feel that this, day, our latest type, now being developed, will be the fastest plane in the world, and longer experimental, and I can't tell you the altitude and flying through fog, even at night, give you positive assurance that out-right any enemy ship under fog, even at night, will join the any conditions."

the chuck, which will be pot-

roasted, if you plan carefully.

Serve it first as it comes from the

pot, second sliced and warmed

in gravy and third, grind up
what's left for a casserole dish.

Be sure to ask the butcher to

bone your roast, and take the

bone home with you to make soup

for a fourth meal.

With Sauerkraut

The pigs feet, of course, are to

be cooked with the sauerkraut.

Two ounces of weiners should

provide two or three, which is

ample to slice and float in lentil

soup. You might use half to three-

quarters of your cheese to make

Welsh rabbit one night and the

rest, grated, as topping for a cas-

serole dish or to sprinkle over

spaghetti. By the way, if you find

potatoes hard to obtain, use spa-

ghetti and other pastes, or cereals

such as rice or cornmeal, as sub-

stitutes. They'll add variety to

your menus too.

148,847 Refrigerators

To Be Released Soon

By The Associated Press

WASHINGTON, April 1.—The
war production board announced
yesterday 148,847 electric and gas
refrigerators would be released
for sale to the public this spring.
Sales, however, will be made
only to persons who sign a form,
supplied by the retailer, saying:
"The domestic mechanical refrig-
erator being transferred to me is
required by me. I have no other
domestic mechanical refrigerator,
nor do I have available any other
refrigeration equipment which I
can use."

In addition, approximately 210,
000 ice boxes will be produced
during April, May and June, and
the public may buy these without
restriction.

NAZIS REPORT DAMAGE

By The Associated Press

LONDON, April 1.—The Nazi-

lished a story that the United
States was selling 400,000 and
thousands more dollars to the
U. S. Flying Fortress last yes-
terday upon Rotterdam, chief port
of call for German naval vessels.

Couple Exchanges Vows at Church in Galion

Special to The Star

GALION, April 1 — Vows were repeated here Tuesday in the Church of Christ by Martha Jean Robinson, daughter of Mr. and Mrs. B. A. Robinson, and Quentín Peter Cahill, son of V. D. Cahill of Galion. The double ring ceremony was read by candlelight, with Rev. L. J. Cahill of Cleveland Heights, grandfather of the bridegroom, officiating.

The bride was given in marriage by her grandfather, J. B. Robinson of Galion. She was attended by her sister, Ruth. Best man for his brother was Tim Cahill of Cleveland Heights. The ceremony was followed by a reception for 40 guests at the home of the bride's parents. The former Miss Robinson is a senior in Fairview Park hospital school of nursing in Cleveland, while the bridegroom is in the Navy Medical Corps, a second class pharmacist's mate, located at Camp Parker, Ohio.

With Mrs. M. G. Thompson presiding the Dorcas society of First Baptist church, Galion, in conjunction with the Red Cross at a luncheon at the church Wednesday. The devotional leader was Mrs. Lee Miller. A party was read by Mrs. A. W. Bradfield.

Hardin County Group Accepted for Service

Special to The Star

KENTON, April 1 — Twenty-five Hardin county men have been accepted for the national armed forces, the local selective service board announced. Eugene Franklin Cummings of Ridgway went into the Marine Corps; Donald Edward Coates of Dola and William Glenn Tudor of Kenton were accepted for the Navy; and James Arthur Mosser of Mt. Victory was accepted by the Army but did not return for a furlough.

The 21 men now home on furlough before reporting Saturday at Fort Hayes, Columbus, are: Leonard C. Opperman, Avery W. Flawert, Carl E. Norris, Paul V. Ewing, Wilbert E. Wolfe, Leroy A. Keel, Ray W. Kearns, Stanley R. Wentz, Raymond R. McClaren, Albert T. Arnett, Robert K. Hoffman, Howard E. Watson, Dale J. Seord and Lewis A. Coats, all of Kenton; Eugene E. Weaver, Roy C. McClure, Donald C. Sterling, Ada, Joseph Donald Skidmore, Columbus, William J. Calvert, Oscar Hail and Billy G. Allen, McGuffey.

Bacon, Waffles in Supper Menu

By BETSY NEWMAN

A bacon and waffle supper is a good idea these days.

MENU
Broiled Bacon, Waffles, Syrup, Greens, Grapefruit and Avocado Salad, Coffee.

Two eggs, 1 1/2 c. milk, 1 1/2 c. melted fat, 2 c. cake flour, 3 tps. baking powder, 1/2 tsp. salt. Sift flour, measure, add baking powder and salt and sift again. Break eggs into mixing bowl, beat until light, add milk and beat it in. Stir in melted fat, then sift in dry ingredients all at once, and stir them in quickly, stirring just enough to moisten well. If there are lumps in the batter they will disappear in baking. Turn into pitcher and pour into hot waffle

HARDING HIGH SCHOOL SPRING PRACTICE HITS FAST PACE

Coach Dorris Puts Scrimmage on Program for Next Week.

Harding High school spring football practice is hitting a high tempo this week with strenuous workouts. Scrimmage will be set for next week.

No spring practice games have as yet been scheduled by Coach Victor Dorris but he hopes to secure an opponent before the end of practice on April 21. However, intra-squad games, which at times can be hotly contested, are on tap.

Monday, the first play will be scrimmage, immediately after that, out-of-blood scrimmages will be held. All along the practices have been and will be tough grinds of from one to two hours.

Dorris starts his charges out with two laps around the field followed by ten minutes of calisthenics. Immediately after that the 67 squad members fall into their respective groups—juniors, sophomores or freshmen. Howard Hoffman, Central Junior High coach, is in charge of the juniors, Joe Petrich, line coach, handles the sophomores, and Ralph Kelly of Central helps Dorris with the first year men.

In these groups the boys train on the fundamentals of the game such as head-on tackle, body block, shoulder block, timing, ball stealing and falling on the ball.

New Shift Coming Up
A new shift will be used by the Presidents next year. The backfield will move from the "T" formation into the single wing. The actual shift movements will employ the principle of the "La Com-

pass" Dorris, who considers himself quite an expert at it, demonstrates for the team personally. After practicing the fundamentals, the players this week have been put through a series of tough gymnastics. For the first 20 yards of the field, each player does 10 forward rolls followed by 40 yards of dog and rabbit runs, forty more yards of crab walks are then run through followed by a final 20 yards of an alligator walk.

As if these were not enough, all the players run another lap around the field. Then a mere 50-yard dash tops off the afternoon's program.

Shiftness Stressed
Footwork has been stressed this week for line and backfield both. Side step, pivot, cross over, whirl and change of pace have been thoroughly reviewed.

No sure starting line-up has been picked by the coaches as yet. The selections for the 11 positions are still in the experimental stage. However, Captain Charles Fazio looks like a sure starter for one of the tackle slots. Vernon Orth, a junior, is a likely candidate for the other tackle. Sophomore Elvin Beach, who was a back last year, has switched to center and probably will get the call at that position. Marion Price, who played some games at guard last fall, came out for practice Monday and possibly may snatch one of the guard spots. Jack Baum has been showing up well at end and may hold down one of the flanks come next fall.

In the backfield, Lawrence Daly probably would have the Pirates' halfback next season, but Uncle Sam may have first call. Stu Young is liked for one of the backfield positions, as is Junior Jack Koepfen.

Harding Seniors Win Hi-Y League

Team Undeclared Throughout Year; Edison Second.

The senior class Hi-Y basketball team of Harding High won undisputed first place in the city Hi-Y league at the Y. M. C. A. gym with a season's final record of eight wins and no losses.

The seniors were led through their undefeated year by consistently high scoring Don Kny and Jim Rissler. Each member of the squad will receive a gold basketball for winning the title.

The Edison Hi-Y came in second with a mark of four victories and four setbacks. Harding's Junior Hi-Y pressed for runner-up honor with a four and five record. The President's sophomore Hi-Y finished last, winning two games and losing seven.

The final standings:

Durocher Raising Fever Over Versatile Catcher

Playing of Dee Moore Makes Leo Happy Far Up in Bear Mountain.

By CHIP ROYAL

AP Features Sports Writer
BEAR MOUNTAIN, N. Y. — The Brooklyn Dodgers are starting high up (on the banks of the Hudson), and they intend to stay high up (in the National league) if the hustle and bustle of their spring training camp doesn't peter out.

Leo Durocher admits freely that he is "tickled to death" with the way his charges are shaping up.

One of the reasons for Leo's wide grins is 190 pounds of versatility in the person of Dee C. Moore, a Birmingham, Alabama, born deep in the heart of Texas, who looks something like Joe E. Brown.

The Dodgers roster will tell you that Moore is a catcher and Durocher says: "There isn't a better thrower in the majors. He has a lot of power with the bat, too, and I expect him to be a big help to us."

Admits He's Catcher
Dee admits to being a catcher now but he has played every position on the baseball field, at one time or another, the past 10 years.

The Dodgers drafted him from New Orleans after he had pitched nine games (winning two, losing two), played the outfield, and pinch hit in 47 games altogether for a batting average of .300.

The Pelicans grabbed him from Anniston, Ala., when it appeared they had a chance to get in the playoffs in the latter part of last season. Dee's hitting has been impressive ever since his first pro game when as a Ponca City, Okla., pitcher, he belted a homer to win 2 to 1.

After that he pitched, caught, played the infield and outfield for Los Angeles, Indianapolis, Macon, Cincinnati, Syracuse, Nashville and Birmingham.

Pitched, No-Hitter
White pitching — catching for Macon in 1936, Moore entered the Sally League Hall of Fame with a no-hitter against Columbus, Dee's first since his high school days. When he was with the Reds in 1936, he was a starting pitcher in several games, and then put on backstopping equipment to receive Vander Meer and Whitey Moore among others.

He gets the name Dee from a grandfather in Amarillo, who was quite a baseball player himself in semi-pro circles. Married, he has a 3-A rating with his draft board.

Durocher is pleased with several other newcomers, young and old. They include Luis Rodriguez, Cuban, a Puerto Rican with a .337 bat for Richmond last year, who

DEE MOORE

has been swatting the ball the hardest of all the Dodgers.

Hardly a day goes by but Leo surprises all who know him when by patting his pitchers' backs, Whit Wyatt is away ahead of other seasons, and Curt Davis, Kirby Higby, Rube Merton, Buck Newson, Les Webber, Bob Chipman, Freddy Fitzsimmons, El Head, Nevt Kimball and Max Macon are not far behind to round out the staff.

TRAINING CAMP BRIEFS

BLOOMINGTON, Ind.—Bucky Walters, the Cincinnati Reds pitcher who sprained an ankle the first day of training, is beginning to be a bit more active after a long rest period. "Those

four hotel walls were beginning to jump at me," he said.

CAPE GIRARDEAU, MO.—Although a back injury threatened to send him to the minors during last year's spring training, Al Hollingsworth is top dog on the St. Louis Browns' pitching staff this season. He has limited his teammates to five hits and no runs in nine innings.

WALLINGFORD, CONN.—Beginning today, the Boston Braves plan to hold all their workouts outdoors, regardless of weather. Manager Casey Stengel blames the soft soil in the Choctaw school cage for three injuries on his squad.

CAIRO, ILL.—Manager Billy Southworth of the St. Louis Cardinals is looking with approval on the work of Harry Walker, who is trying to fill Enos Slaughter's shoes in the Cardinals' outfield. Walker slammed a homer and double, drove in three runs and counted one in yesterday's intra-squad game.

MEDFORD, MASS.—The Boston Red Sox wind up drills in the Tufts college cage today, then head for their opening exhibition game in Brooklyn Saturday. Bobby Doerr, whose first workout was a good one, insists he'll be ready to start at second base.

FRENCH LICK, IND.—Chicago's Cubs and White Sox squared off today for the second of their "this one doesn't count" spring training games. The Sox wrote a familiar finish to the first clash when Rookie Frank Kalin clouted a two-run homer off Len Warneke in the last of the ninth for an 8-7 decision.

JUNIOR HI-Y CAGE TOURNAMENT TO OPEN AT Y. M. C. A. SATURDAY

All Regular League Teams To Meet in Post-Season Round of Games.

A Junior Hi-Y basketball tournament will start at the Y. M. C. A. Saturday, finishing up the year's play after completion of the regular league season last week.

The tournament will have as participants all the regular league teams. Max Schrist, of the Central Junior High school faculty, is supervisor of the tourney.

Central's eighth grade Torch club won the season title with five wins and no losses. Tied for second place were the Central seventh grade and the combined seventh, eighth, and ninth grade club from Thomas A. Edison Junior High.

In the first round games of the tournament the Central seventh graders will meet the Edison team and the Vernon eighth and ninth graders will play the champion Central eighth.

Vernon seventh graders and the Central ninth drew byes for the opening round but will meet the winners of the first two games April 10.

The tournament will last two weeks, the finals scheduled for April 16. Many players from the regular junior high squads are expected to bolster their representative teams in the tourney. None of these boys were permitted to play during the regular season.

The final standings in the season's league schedule were:

JUNIOR HI-Y LEAGUE

Central 8 5 0
Central 7 3 1
Edison 7, 8, 9 3 1
Vernon 8, 9 2 3
Central 9 1 4
Vernon 7 0 5

Snatches of Sports

By HUGH FULLERTON JR.
Associated Press Sports Writer

NEW YORK, April 1—Although the National A.A.U. swimming championships this week-end are packed full of record-breakers, about the only chance of busting a record will be in the opening event on some program.

Reason is that the New York A. C. pool is a bit too narrow to be called "fast." Coaches say the same races at Yale would produce times one fifth or two fifths of a second faster.

Today's Guest Star—John Mooney, Salt Lake Telegram: "Anytime, the rookie crop which blooms so nicely in the grapefruit loop, ripens so nicely the first weeks of the season and then either rots or drops from the limb about midseason, may be regarded enough by the north-land's cold to insure a better yield this fall in the major league apple orchard."

The Iowa System—Football coaches likely will be keeping a close watch on spring football practice at the Iowa Pre-flight school—and not with the idea of picking up a couple of good running guards. The school will put a dozen squadrons teams in the field and Lieut. Col. Bernie Bierman plans to give half of them off-ense patter after his own Minnesota system and to teach the other six "T" formation plays. They'll wind up a round-robin schedule with an all-star game between the two groups.

One-Minute Sports Page—Eric Tipton, the old Duke footballer who is No. 1 candidate for the Cincinnati Reds' left field job, still is trying to get into some branches of the armed forces although he has been turned down by all of them because of a perforated eardrum.

Gone Goose Rhyme—Sing a song of Beau Jack, he's the guy you know. With four and twenty backers, loaded up with dough. He's fighting Henry Armstrong, who came back from the shell.

It may be mighty tough on Beau if Hank is his old self.

Service Dept.—Daryl Marshall, the trotting horse pilot, has been sent to Camp Bliss, Tex., and is in the infantry. Chief Specialist Curt Sandis, who divided the football headlines with Bill Dudley on the Pitts-

INDIANS TO BREAK CAMP AFTER 12-3 WIN OVER PURDUE

Tribe's Regular Hurlers Go Up Nine Hits.

By The Associated Press.
LAFAYETTE, Ind., April 1 — Cleveland's Indians prepared today to break camp Friday after scoring a 12 to 3 victory over Purdue university's nine, bolstered by Tribe hurlers in their second contest with outside opposition.

The Tribe's first stringers, having three of their own hurlers in the mound for the collegians, scored their heaviest, six runs, in the eighth inning when Ray Fox issued six bases on balls, five of them in succession. Otto Durning, recently assigned to the base, followed with a double to clean the sacks.

Errors on both sides were plentiful, five charged against the Indians and six against the Butler-makers.

Jim Bagby, pitching against the Tribe, gave up two runs, both earned. Al Milnar, also hurling against his teammates, allowed three to cross the plate, two un-

"Fleet" Amazes Rail Birds

NEW YORK, April 1.—A loud whistle of amazement went up from the rail birds as the brown streak zipped by the finish pole, and "Knock Down the Champ" Marching society dissolved right there.

The streak was Count Fleet, Mrs. John D. Kertel, Kentucky derby glamour boy, and he had just whizzed through what the older buzzards among the rail-birds said was the fastest mile workout ever turned in by a horse this early in the season after a winter vacation.

The "work" came up quickly with the sun Tuesday at Belmont and few knew about it until the clockers had their watches checked. The Count romped the eight furlongs in 1:38 3-5, and the only times that even came close this early, the older "birds" said, were by Grey Lag and Sporting Blood, a couple of gee-gees from way back in the '20s.

"Well," one old-time shrugged, "that's the conviction. Nobody's gonna knock down the Count after that one."

Sure they still talk up Ocean Wave and Blue Swords and Devil's Thumb and they point out

Kid Goalie Helps Bisons Win First Playoff Game

RUFFALO, N. Y., April 1.—A kid goalie playing his first season as a professional and a veteran forward share honors in the Buffalo Bisons' first-game victory over the Indianapolis Capitals in the American Hockey League championship playoffs.

Eighteen-year-old Gene Bell, who stepped off the Canadian amateur ranks to become the team's leading net-minder, held the Caps to a single goal last night, as Moey Rostals, a Bison since the club was formed three years ago, scored two of Buffalo's three tallies.

The second game in the best-of-five series will be played here Saturday night.

New Yorkers Find Midwest Gloves Just Too Tough

CHICAGO, April 1.—So far as New York's golden gloves were concerned there was no fooling today—no fooling that the mid-west grows its amateur boxers tough.

The Manhattan fighters have been trying to whip the mid-westerners at Chicago ever since the intercity bouts were originated in 1928. Even in their own backyard, the New Yorkers encountered aggravating resistance, winning only four times in the 16-year-old rivalry.

But last night their efforts reached a climax of futility. The New Yorkers won only two of the 16 bouts in which a champion and an alternate from each team fought in the eight weight classes. Their lowest setback previously was in 1931 when Chicago won, 13 to 3.

For fans liking a shade of fineness with their roughhouse battling, Chicago presented baby-faced Tony Janiro, 16-year-old Youngstown, O., lad who never has lost a fight, and LeRoy Jackson, Cleveland Negro who won the national AAU title in 1942.

Janiro did a masterful job against New York's George Cooper for the 126-pound title. Cooper kept Janiro alert with several left hooks in a stirring engagement, but throughout it was Janiro who piled up points with short jolting jabs to both head and body.

Janiro, one of six boys in a family, started fighting when he was 15. Last night's victory was his 28th consecutive, and he says he wants to go on to become a professional.

"Things have been pretty tough at home," he said, "I would like to make them a lot easier if I can."

Home Town Boy Surprise to Cleveland Fight Fans

CLEVELAND, April 1.—Lloyd Marshall made his first professional start in his home town last night and the fans discovered they had been missing something.

The former city amateur middleweight titlist has been doing his ring work in California, where he claims the middleweight and light heavy championships.

In scoring an eight-round technical knockout over Ezzard Charles of Cincinnati, Marshall surpassed Jimmy Bivins' effort—and Bivins is generally regarded as the best of the light heavies and heavies who are still fighting for themselves instead of Uncle Sam. Bivins administered a terrific beating to Charles several months ago but Charles was able to go the 10-round route.

Marion Athlete Teaching Naval Recruits To Swim

A Harding High school and Ohio Northern University athlete is putting his extensive sports knowledge and experience to work for the United States Navy, according to word from the public relations office at the naval training station at Newport, R. I.

He is Robert M. Minard who played basketball at Harding and was in varsity basketball and track at Ohio Northern. A member of Sigma Pi Fraternity, he has a brother who is a storekeeper in the Navy. Minard, who holds the rating of chief specialist in athletics, is at present instructor in swimming and life-saving at a Navy pool.

In time of war it is important that every fighting man know how to swim. The most important aspect of Minard's work is to teach non-swimmers the fundamentals. He also instructs recruits on how to swim while wearing their clothes as well as in oil and fire slicks. Lifesaving, how to make lifejackets from trousers, pillow cases and hats, and the proper way to jump into water during a blackout are also important in this line of work.

Minard's wife, the former Martha Jane Van Atta, lives at 165 Homer street in Marion. Before entering the service, her husband

The game was the last the Indians will play here. On Friday they journey to Muncie for two frays against the Pittsburgh Pirates and for a week thereafter their headquarters will be at Indianapolis.

BLOOMINGTON, Ind., April 1

—Manager Bill McKeechie of the Cincinnati Reds lets it be known he thinks well of Bob Malloy, a young right-handed pitcher who worked hard for Birmingham in the Southern association last year.

The lad, who has been in organized baseball only two years, has considerable stuff and good control. A former student at the University of Pittsburgh, Malloy was picked off the Pittsburgh sandlots by Red scouts and sent to Birmingham in 1941. He won 13 and lost 13 there last year after losing his first six games.
